

Reality Twist launches "B.U.D.": Big Update Day! The indie developer has released updated versions for their most famous games.

Indie developer Reality Twist has worked hard to upgrade their most famous games "Cuddle Swing", "Iron Sky" and "Adventure German". These updates feature new and improved gameplay, new content, new animations, new soundtracks and even complete new releases for Android, iOS and webbrowser! All of these updates are available free of charge and nearly busts the space we have for just one single press release.

Munich, June 2012

1st Big Update: iOS version of *Cuddle Swing* and improved gameplay

In *Cuddle Swing*, the player helps a little, pink cutie on his epic quest through the large rain forest. For his journey, developer Reality Twist has created an all new game genre: Cuddle Swing is the **first Jump'n'Swing** game ever produced: Cuddle swings through the levels by holding onto trees and other objects with his **tail**. But beware! Some objects may not be as solid as they seem.

After the **amazing success** on **Android** with thousands of regular players, this addictive game has finally also **arrived** for **iPhones**, **iPads** and **iPod touches**. But even more so, Reality Twist has taken all the user feedback to heart and has improved the gameplay with **redesigned screens**, **new animations**, a **new help system**, **redesigned power-ups**, a **trophy room** and **even more responsive controls**. If you're an iOS user and don't know Cuddle yet, check it out on the AppStore. The full game is **free of charge**: <http://cuddleswing.reality-twist.com>

2nd Big Update: Android version of *Iron Sky* and game soundtrack by music legends *LAIBACH*

In March, Reality Twist released the officially licensed game to the highly acclaimed **movie blockbuster IRON SKY**. In it, you board a cool space craft, load some heavy ammo and go on a final mission to finish the Nazis that are attacking from the moon. You'll fight against thousands of Nazi **UFO-squadrons**, monstrous Nazi **zeppelins** or dangerous Nazi **bells**. First, this **epic arcade adventure** has been released for iOS devices.

Now, Reality Twist has **ported** the game for Android tablets and phones as well. But even more so, Reality Twist has also included the **original motion picture soundtrack**. This includes unique tracks by the legendary band **LAIBACH** deliberately composed for the Iron Sky universe. All iOS and Android users can check out this new enthralling experience by downloading the latest version of **IRON SKY: The Arcade Shooter** here: <http://ironsky.reality-twist.com/>

3rd Big Update: New gameplay, new languages and new Web-Edition of *Adventure German*

German fans and adventure gamers beware: The free serious game “Adventure German” developed by Reality Twist and the language experts at the “Goethe-Institut” has been completely revamped for even more gaming and learning pleasure!

Play, experience a **thrilling adventure**, and learn **German** too! Accompanied by the art expert **Vincent Mirano**, you will embark on an exciting journey throughout Germany. Has the **4000-year old Nebra Sky Disk** been stolen?

Find it out in this free adventure game. It has been available for iOS and Android since the beginning of this year. But if you don’t own a smartphone, don’t despair: Our adventure game

can now be played by nearly everyone **with a web-browser!**

The browser-version features the same, great content of the mobile version with attractive **2D art**, exciting **animations**, full **voice-over** and an exciting **storyline!** But there is more: Reality Twist has also **improved gameplay** features. **New help mechanisms** ensure that you don’t get stuck even if you’re not too familiar with adventure games. An **ingame manual** explains everything you need to know about your journey. Even more so, the **loading times** at the beginning of the game have been **optimized** as well.

As if this wouldn’t be more than enough, Reality Twist and Goethe-Institut have also translated the game for different territories. Besides the German and English version of the game, you can now also play the game in languages like **Chinese, Czech, Italian, Grecian, Lithuanian, Polish** or even **Albanian!** Check out the official page for the game for more information and downloads – it’s free!

About Reality Twist

Reality Twist develops first-class video games for all premium platforms like the Xbox 360, PlayStation 3, iOS and PC, and designs all type of genres for all kinds of target groups – from smart sport games to exciting adventures. For the Munich-based company, an immersive experience, exciting gameplays and thrilling worlds are always in the focus of its products. Reality Twist is a full service provider and offers the complete service spectrum of game development: from pre- and postproduction, conception, design, producing, project management to marketing. High-class and innovative products as well as sustainability are the primary goals during the development. Reality Twist therefore sets high values in an excellent educated team, consisting of programmers, authors, game designers and artists as well as a multiplatform-approach during the development of its products.

Besides a huge know-how about popular game-engines like Unity3D or Trinigy Vision, Reality Twists continuously improves its own basic technologies. By this, the company guarantees its clients not only a technological head start but also a high-efficient and above all a predictable development process. Apart from its own productions, Reality Twist also accepts work-for-hire-projects from other game developers or publishers. For the industry, the company develops professional, interactive simulators for theme parks. Reality Twist is supported by the level up program of "Game Connection", Microsoft's BizSpark initiative and the FilmFernsehFonds of Bavaria (FFF Bayern).
